0°F to +200°F
Maximum 250°

INSTALLATION: Connections shall be made per installation instructions outlined by the appliance manufacturer

Air Friction Chart

Friction loss is computed in inches of water gauge per 100 feet of straight duct.

APPROVAL

- SilverDuct™ is constructed to meet UL® 2158A Transition Duct for Clothes Dryers; but when it is sold in lengths over 8 feet long is is not eligible to carry the UL® label
- The Steel wire and foil provide some flame resistance, however, all wire helix designs are held together with layers of aluminum foil and polyester plastic. Clothes dryer manufacturers may limit the use of plastics in venting. Check the dryer warranty and installation instructions as well as your local building codes for appropriate use.

LABELS

WARRANTY

Manufacturer assumes no responsibility for failure due to improper installation. All specifications and designs are subject to change without notice and without incurring liability.

WARRANTY EXCLUSION AND DISCLAIMER Seller specifically excludes, and hereby disclaims any express representation or express warranty of any kind with respect to the goods ordered hereunder. All implied warranties, including without limitation merchantability or fitness for a particular purpose or arising from a course of dealing or usage or trade shall expire and cease 45 days after date of delivery. Seller shall not be liable to buyer or any third party for any special, secondary, incidental, or consequential damages however arising. Nothing in this provision shall invalidate or restrict any right or remedy otherwise available under state or federal law. Materials and specifications subject to change without notice.
