CLOS-TD CLOSE LOOP™ UL® DRYER VENT KIT

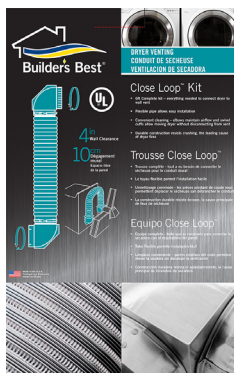

PRODUCT DESCRIPTION

The 6' universal dryer vent kit features one 6 foot section of pipe attached to two Close Elbows® and two clamps for wall and dryer connections. The kit installs in 4.5" when the wall pipe is trimmed flush. Clamps are provided for wall and dryer connections. Swiveling collars on the elbows allow for the dryer to be pulled away from the wall for cleaning without disconnecting the system.

Elbows are fastened to the duct with clamps so that they can be easily disassembled to meet a variety of installation challenges.

DISPLAY SAMPLES
